

## POLYREY STOCK SELECTION

Spécialiste depuis 60 ans du stratifié décoratif de haute qualité, Polyrey a lancé une nouvelle collection 2018 avec une choix entre 317 décors. Avec 93 nouvelles couleurs et 8 structures en plus la collection ouvrent le champ des possibilités aux projets d'aménagement et de décoration les plus variés, allant des pièces à vivre en habitat individuel aux espaces commerciaux, hôteliers, hospitaliers, tertiaires...

'**Antifingerprint**' repris sous le nom de "Touch" dans la gamme et les panneaux colorés dans la masse sont 2 tendances que POLYREY a bien suivies.

La gamme TOUCH présente même des décors antifingerprint en structure roche et Linimat. Le décor noir N005 peut être utilisé pour toutes vos armoires "push and pull" sans trace de doigt.

La série **MONOCHROM** offre des stratifiés colorés dans la masse en structures et teintes différentes.

POLYREY a toujours prêté attention à la complémentarité entre HPL et mélamine.

La collection mélamine **PANOPREY** se compose de 188 couleurs en complémentarité. Une innovation inspirante est la gamme des panneaux mélaminés sur base de MDF noir.

Les designers ont la possibilité de faire des créations avec du fraisage special.
